

# Jaiden Hodson

## Full Stack Software Developer

### Projects

#### MUFG & Union Bank - Full Stack Developer

[Legacy Page](#) | Updated Page - Pending

*Integrated an authentication orchestration system into the bank's login and HRT flows to improve user experience and maintainability of code.*

- Became the lead frontend developer after just 8 months on the project.
- Improved latency for the customer login flow by 6.4 seconds.
- Redesigned legacy screens to be responsive to all screen sizes.

#### HelpingMyFriend.com - Lead Backend Developer

[Demo](#) | [API Documentation](#)

*Developed a platform for users to create and share campaigns with the ability to add fundraising, meal-planning and work party scheduling services.*

- Designed and implemented the entirety of the backend API from the ground up using requirements proposed by our project partner.
- Trained/managed lesser experienced developers.

#### Marvel Comic Wiki - Frontend Developer

[Demo](#) | [Github](#)

*Developed a GUI for traversing through Marvel's database via their developer's API.*

- Designed and hosted an accessibility-focused platform with an extensive amount of information pertaining to the Marvel Universe.

#### Whole Body Health - Full Stack Developer

[Demo](#)

*Developed and designed a company website for this client to advertise their chiropractic & rehabilitation services to the public.*

- Took the client from start to finish in designing and launching their custom-made website, including registering with Google as an LLC.
