

Jaiden Hodson

Full Stack Software Developer

Company: Dapple

Position: Security Software Engineer

Date: 02/13/2024

Dear Hiring Manager,

I am writing to express my strong interest in this position at your company. With a proven track record of building secure, robust, and user-friendly applications from the ground up, I am confident I possess the skills and experience you are seeking.

Experience Highlights:

- **Led frontend development** for a high-impact project at MUFG and Union Bank, revamping their authorization and authentication system used for **critical financial transactions**. This project demanded meticulous attention to security and reliability, skills perfectly aligned with your company's focus on maintaining robust and dependable systems.
- **Built a full-stack platform** (frontend, backend, devops) for HelpingMyFriend.com, an early-stage startup. This hands-on experience honed my ability to wear multiple hats, solve complex problems, and **deliver functional, scalable solutions** within tight deadlines.
- Possess strong proficiency in **TypeScript/JavaScript, React, and Python** (for AWS Lambda interactions and devops tasks). I am also a fast learner and eager to **stay updated with the latest technologies** relevant to your projects.

More than just technical skills:

- I am a **highly motivated and results-oriented** individual with a passion for creating **elegant and efficient code**.
- Thrive in **collaborative environments** and possess excellent **communication skills**, ensuring seamless teamwork and client satisfaction.
- Possess a **proactive problem-solving attitude** and enjoy tackling complex challenges, as evident in my work with my previous clients.

I am eager to learn more about this opportunity and how my skills can contribute to your team's success. Please find my resume attached for further details. I am available for an interview at your earliest convenience.

Thank you for your time and consideration.

Sincerely,

Jaiden Hodson
